

# Household Supply List

You can help WCSV by donating various items that you probably have sitting around your own home! Any and all donations help, especially in the busy spring and summer months when we sometimes take in over 70 patients in a single day.

Take a look around your house for any of the items listed below, or consider picking up an extra item or two the next time you swing by the grocery or hardware store to help out local wildlife.

Check out our website at [wcsv.org](http://wcsv.org) to learn more about our Amazon Wish List and shopping through AmazonSmile as well.
